YASSER EL-SAYED EL-ALFY

Researcher | KFUPM

g201406850@kfupm.edu.sa | yas.alfy@gmail.com | LinkedIn | Google Scholar

Yasser El-Alfy is a researcher at KFUPM working on learning-based perception and 3D SLAM. His work focuses on integrating deep learning with traditional robotics to build robust navigation systems for autonomous vehicles and drones.

CITATIONS: 21 | H-INDEX: 2 | i10-INDEX: 1

EDUCATION

Doctor of Philosophy in Computer Engineering
King Fahd University of Petroleum and Minerals, Saudi Arabia | 2023-present

Master of Science in Computer Engineering
King Fahd University of Petroleum and Minerals, Saudi Arabia | 2021-2022

CGPA: 3.688

Bachelor of Science in Computer & Communication Engineering (BSCCE)
Ahlia University, College of Engineering, Bahrain | 2018-2020

CGPA: 3.99

High School
Ahlia Schools, King Fahd University of Petroleum and Minerals, Saudi Arabia | 2012-2014

Cumulative Grade: 99.92%

PROFESSIONAL INTERNSHIPS

Research Intern
Center for Communication and Information Technology Research (CCITR), Research Institute, KFUPM | 2020

RESEARCH STRATEGY

My research focuses on bridging the gap between raw sensor data and high-level spatial understanding. I develop monocular depth estimation models and integrate them into SLAM pipelines to enable 3D mapping without expensive LiDAR hardware.

Key Focus Areas:

- Monocular Depth Estimation
- Visual SLAM & Navigation
- Road Anomaly Characterization
- Edge AI for Robotics
- 3D Mapping
- Scene Understanding

TECHNICAL SKILLS

Languages: Java, JavaScript, Visual Basic, Python, TensorFlow, Pytorch, HTML, Assembly, Arduino, VHDL, Verilog

Software: Matlab & Simulink, Sumo Simulator, Cooja/Contiki Simulator, Xilinx, Modelsim, Cisco Packet Tracer, Arduino IDE, mikroc pro, ISIS 7 Professional, Eclipse, Visual Studio, Visual Studio Code, Google Colab, Jupyter Notebook, Microsoft office programs, Latex, Overleaf, Adobe Photoshop, GIMP, Adobe Indesign, DaVinci Resolve, PowerDirector, Kdenlive, Microsoft Teams, Zoom, Google Meet, Cisco Webex, Blackboard, Moodle

TEACHING ACADEMIC PROFILE

ITCS 122: Introduction to Programming Techniques 2018-2020

ITCS 121: Computer Programming 2018-2019

ITCS 101: Introduction to Computers & IT 2018-2020

ITCS 222: Visual Programming 2018-2019

ITMS 325: Web Applications Design 2018-2019

ITCS 224: Data Structures 2019-2020

ITCS 201: Object Oriented Programming I 2019-2020

CERTIFICATES

IELTS Certificate: 6.5 2020

ICDL Certificates in Microsoft Office 2018

Certificates of appreciation for being lab assistant, Ahlia Univ. 2018

Qiyas - General Aptitude Test: 100% 2014

Qiyas - Achievement Aptitude Test: 97% 2014

DATASETS

Road Anomaly Dataset with Depth Ground Truth
The first pothole dataset with depth ground truth values, manually annotated for high accuracy.

Pothole Detection Under Various Weather Conditions Dataset
A dataset with pothole images and generated/simulated various weather conditions.
